

Support Letter for Partner (On Letter Head Signed by head of the institution)

Editing/changes/addition/deletion can be made as per your requirements

Application Title: Making "Deep Learning and AI skills" mainstream in India to fulfil trilateral needs of entrepreneurship, Industry-academia partnership and application-inspired Engineering Research from Royal Academy of Engineering, UK
UK Partner: University College, London; Brunel University, London
Industry Partner: NVIDIA, AWS Educate Amazon, Edvantics, Videoken
10 Collaborator Institutions, 100 Zonal Partners and 1000 Partner institutions in India

The objectives of the project are of great relevance to us because it is unique in its ambitions. Deep Learning, Machine Learning and Artificial intelligence are increasingly becoming the must-have skills for faculty, students and researchers in different engineering domains. Our institution is aspiring to inculcate this technology for the benefit of our stakeholders and the country.

We are pleased and excited to work with Prof. Deepak Garg for successfully executing this initiative. We understand that Bennett University has a great supercomputing infrastructure and accomplished faculty, which will be of high value for this engagement.

Our faculty will get trained on futuristic technologies which in turn will help us to train our students.

We will be bound by the guidelines given in the proposal sent by Project lead.

Institutional Information

Years institution has been in existence:

Engineering courses offered in Nos (Only Number):

students and staff(faculty) (Only Number):

of research groups (Only Number):

Indicators of track record (rankings, awards etc: **2-3 Lines**):

Link to website for engineering faculty:
